SPN 5th Graders Finish in FIRST Place in KCK District's "Are You Faster Than a 5th Grader?" Race (Continued from Page 1)

With 450 fifth graders competing and over 100 teachers and KCK district personnel also running, the two mile course started at KCK Community College and then continued through the streets of KCK and finished on the track of Washington High School.

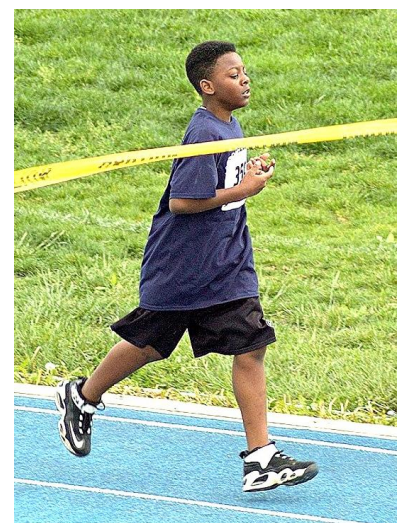

In addition to the two mile run, all other 5th graders from each KCK elementary school also took part in the One Mile Walk in this special KCK District event. The One Mile Walk is a non-competitive activity with teachers and staff members walking with the students from Eisenhower Middle School to the Washington High School track.

(Continued from Page 9)

The scoring for the "Are You Faster Than a 5th Grader?" event is determined by how many runners from each of the 30 KCK elementary schools finish the two mile run before Dr. Lane crosses the finish lane. Stony Point North had **ALL** of its 15 runners finish the two mile run before Dr. Lane which resulted in the First Place finish for SPN!

The 15 runners representing Stony Point North were: Daniel Luna, Yahir Cazares, Bryan Aguirre, Tre'von Williams, Angel Reyes, Diana Hernandez, Isaiah Coppage, Juhriat Ontiveros Ramirez, Brenden Keeling, Osvaldo Perez Morales, Jahir Rivas, Alexia Martinez, Todd Boykin, Sophia Hernandez, and Cassidy Reno.

This was the fifth year for the KCK District's "Are You Faster Than a 5th Grader?" event. In the past 5 years, Stony Point North has finished in FIRST Place TWICE (2013 and 2016), finished in Second Place twice (2012 and 2014), and in seventh place once (2015).
